Care management

Under the Support at Home program, you will work with a dedicated Care Partner to create a care plan based on your needs, goals and interests. They'll get to know what's important to you, help you choose your services, consult with your supporter (if you wish), and update your budget as needed. They'll check in with you regularly to make sure your care plan is meeting your needs. The Australian Government automatically sets aside 10% of your quarterly budget to cover these care management activities and charges.

Contribution rates

Your contribution rate is determined by the Government (Services Australia). It is based on the type of service you wish to receive, your pension status as well as your income and asset assessment. You will need to pay contributions at your assessed rate for services received from the Everyday Living and Independence categories. You do not need to pay any contribution towards services received from the Clinical category.

Self-management: choose your own supplier

You can choose and manage your services with help and advice from your Care Partner. We have a range of trusted contractors for you to choose from, or you can choose your own. If you choose your own supplier any related charges will be outlined in your budget.

Assistive technology and home modifications

We can help organise equipment, assistive technology and home modifications to support your comfort and safety at home. Your Care Partner will work with you to confirm and agree prices before purchasing.
